

Billy Berg of Bill Bryan show off his latest beautiful cars

Is National News Giving Fair Coverage?

By TomL

Antonio West was the child who was shot and killed by two teens, who were attempting to rob his mother, his mother was also shot. Antonio's murder and his mother wounding made the news for maybe a day, and then disappeared.

A Grand Jury from Brunswick, Georgia ruled the teens who murdered Antonio will not face the death penalty... it was Antonio who got the death penalty from his killers instead, because his mother didn't have the money they demanded. They shot him in the face!

Murders from June 1 thru July 10

No national news! Why did I print this you figure it out. Just be aware and beware!
GOOGLE FACT CHECKED!

The American Flag!!!

If you see an American Flag that has anything changed or added? It violates the flag code! No color changes, why would you want a black and white flag? Why would you want a American Flag with a thin blue line? Another Style that is hitting the internet right now is half U.S. and half military... Most of those are made in China. Any changes of or on the American Flag violate the flag code! The only thing you can do is make it bigger or smaller!!!

Dr. Paul Banerjee

By TomL

Dr. Paul Banerjee is the Medical Director for Polk County Fire Rescue, Polk County Sheriff's Office SWAT team, Dr. Banerjee is board certified in Emergency Medicine and is an Associate Professor in Emergency Medicine at the University of Central Florida School of Medicine, Mercer

University School of Medicine and the University of South Florida School of Medicine. Dr. Banerjee was an EMS 10, 2017 Innovator of the year and the State of Florida Medical Director of the year in 2012. Dr Banerjee is also a member of the Metropolitan Collaboration of EMS Medical Directors.....

What do you think of all those certifications? Dr. Paul Banerjee recently gave a talk on COVID-19. During his talk he gave facts about how long the virus could live on different surfaces. Plastics, stainless steel, cardboard box etc. Then he gave statistics about the outbreak itself and the fact that the virus is very similar to other viruses that we have had around for years. Yes it's bad but there are many good things being tested right now that is showing promise. He said he would not take a vaccine until it has been used for a year. Your chance of catching the COVID-19 is .24 of one percent. That means we have a 99.76 chance of not getting it. One of the questions ask is the COVID-19 numbers inflated. He said he had not seen signs of that. My estimation is if you are a Doctor and you get \$10,000 for every patient of yours that is dialogist with COVID-19, what would you do? I'm only asking???

AS I SEE IT

Apparently, many residents of 'The Villages' in Florida are concerned about their community moving away from building single-family homes and going full-on commercial and multi-family instead.

Seems that increasingly apartments, medical facilities, assisted living homes, shops, stores and businesses are the new focus.

The original 'Orange Blossom Gardens' started out as gated, Mobile Home Subdivision within the Town Of Lady Lake, back in the 70's.

But they soon changed, first to 'hybrids'; Mobile Home Construction installed on a concrete slab, and then to larger conventional homes.

The main selling approach was to promise 'Free Golf For Life' with access to numerous other 'amenities', clubhouses, Town Squares, softball, tennis and much more, all for a nominal monthly fee.

At the time, 'officials' from the Town Of Lady Lake freely admitted that they were approving

tax-free bonds to the now-renamed "Villages".

'High Finance' is way beyond my understanding, but it seems that the Founder, Harold Schwartz and his son Gary Morse's team, would borrow the Bond Money to be used for land purchases, and construction improvements, water, sewer, streets, golf courses etc; Then that

'infrastructure' and those amenities would be sold to another company they owned/controlled, thereby making a multi-million dollar cash profit, without risking a dime of their own money.

then a 'CDD' (Community Development District), would repay the bonds out of the mandatory Amenity Fees which they collected from Resident/Homeowners.

Some residents claim that system is still in place today.

That has worked well for years, but now residents say that 'management' is closing down or even demolishing pools, recreation facilities, clubhouses and converting, what was expected to be conventional residential areas to multi-family, rentals, retirement centers and the like.

One person said that examples include the recent construction of densely-sited apartments at Brownwood. Then the demolition of Hacienda Hills CC with plans for a large high-rise building, and

apartments to replace the former Katie Belles club.

As I See It, there seems to be a complete misunderstanding by Buyers/Home-Owners/Residents in The Villages.

Over the years dozens or, perhaps hundreds of 'Villagers' have claimed that their monthly 'Amenity Fee' entitles them to free golf, pools, clubhouse access, activities, tennis, softball, entertainment in the Town Squares and numerous other 'freebies'.

Of course, typical buyers accept what

they are told without question.

You'd expect that residents of a community like The Villages', which includes so many educated, retired, professionals would take time to 'read-before-you-sign'!

Unfortunately, I am neither educated nor retired, but, I can read!

I'm hoping that someone, who is better informed than I am, will enlighten us as to exactly which 'amenities' management is legally obligated to provide to homeowners!

This issue came up when a 'visitor' asked why so much 'premium real estate', (for example, on both sides of CR 466 and 466a), were 'wasted' by being used for non-profit golf courses.

Furthermore, she suggested that the prominent golf courses, on prime commercial real estate, are simply a temporary use as 'window-dressing' to promote sales.

But, ultimately to be developed similar to US Hwy 27/441 from Lady Lake north to Summerfield.

She claimed that, in fact, residents of The

Villages, have no 'legal' entitlement to 'amenities'!

That residents have an obligation to pay, but the developer has no 'legal obligation' to provide anything in return for the fees they receive!

'til next time. . .

MAKING SENSE OF INVESTING

Florida State Senate

DENNIS K. BAXLEY

Dear Friends,
It is a great day to be an American! Every day that we wake up in this country is a blessing and we are so fortunate to be living in this place, surrounded by so much opportunity. Opportunities to raise a family, build a business, or serve the community are all around us if we would just be willing to apply ourselves in pursuit of it. It was

encouraging to see that we still have many willing people to answer that call during this first portion the 2020 election season. Not just those that were ready to campaign for public office, but all those people who knocked on doors, made phone calls and showed up at the polls to participate in our elections process.

Statewide, voter turnout was slightly higher than either 2018 or 2016 and that is very encouraging. Still, these numbers show

that only about 1 in 4 registered voters showed up and even fewer than that made it all the way through their entire ballot. The good news is, a few people made a really big difference! Those that did not participate do not have a voice, but you did and your voice was amplified because of their apathy. Thank you for your dedication and commitment in being engaged in your government.

With the 2020 primaries behind us, it is critical that we set aside the differences we may have had and support candidates who will advance conservative principles and help get President Trump re-elected. Those candidates may not have been our first choice, and we might not agree on one-

hundred percent of the issues, but now is the not the time for divisiveness. The liberal socialist machine will run us over if we are still fighting amongst ourselves. Let us unite behind these good candidates and defeat socialism is 2020!

It is an honor to serve and sit in your seat in the Florida Senate. Thank you for letting me be your voice in Tallahassee.

Onward & Upward,
Dennis Baxley

Hurricane Season Is In Full Swing

2020 Hurricane Season Is In Full Swing—Eight Ways To Prepare Now

(NAPSI)—Hurricane season officially runs through November, and while no one can predict what lies ahead, there are things you can do to prepare. Here, T-Mobile offers eight ways to stay connected.

1. Make a disaster kit: Include things such as batteries, snacks, water, a first aid kit, a flashlight and device chargers.

2. Update your family, friends and emergency services contact numbers. Make sure they're saved and backed up in your devices AND written down someplace accessible.

3. Subscribe to official text alerts and connect with official social networks to learn about new developments before, during and after a disaster.

4. Keep your mobile devices fully charged. Have charging cables handy and consider picking up a car or portable charging device.

5. Protect your technology with waterproof re-sealable plastic bags.

6. Download emergency-assistance apps from the Red Cross and FEMA.

7. Make sure your phone supports Wireless Emergency Alerts and that you have enabled notifications on your device. Visit t-mobile.com/wea for details on how to set up alerts on T-Mobile and Sprint devices.

8. Set up Wi-Fi Calling on your phone if you have a phone that supports it. For Apple phones, go to Settings > Phone > Wi-Fi Calling; for Android phones, go to Settings > More Connection Settings > Wi-Fi Calling.

Managing Service Interruptions

Even with the measures T-Mobile and other wireless operators take to prepare their networks against disasters, there is still the potential for power outages and other communication service interruptions.

If your mobile service is interrupted or spotty immediately following a hurricane, try the following:

If you have home broadband and power but no mobile service, try Wi-Fi calling, which lets T-Mobile and Sprint customers with capable devices text and make and receive voice calls via any capable Wi-Fi connection. IMPORTANT: If you have to call 911 using Wi-Fi, be sure to give your address to the operator.

PUBLISHER'S NOTES

Tom Loury Publisher raises his OBL cup to the Ocala Business Leader friends for many years, Photo by Tammy Portrait Artist, Inc.

Conner Hoff the missing young man has been found. Conner turned up missing June 17, 2020. He is well and that is all I know. Thanks to all you people out there that helped find him!

To you historians out there! Let's go back 100 years. A guy named Jon (John) Mines lived near a place called Brown's Mountain here in the United States. I think that it is in Penn / West Virginia / Ohio area. Mines was a timber surveyor. I would like to locate his family. Anyone out there have a way of tracking history in there computer? tloury@att.net

Sir Nicholas Winton saved 669 Human Lives from Nazi Concentration camps. His wife Grete found a note book with a list of the Children he had saved and offered to

BBC television station. They surprised Nicholas by honoring him and inviting all the people he saved to a thank you event. He was over whelmed.

Some years back we had a writer who was retired military. His name was Robert Balfour. He was a writer for the Stars and Stripes military newspaper. He also was under Ike Eisenhower's command, one of his top men. and a friend. I saw many pictures of him and Ike together. Robert did not write about politics, but he did write about life in the Villages, war stories, golfing. He worked as a PR man at a large Golf Cart manufacturer.

He wrote for us for probably four or five years. He was an avid golfer, really loved the game. He called me one day and said I want you to do me a favor, I said OK. He started

with I went to the doctor last month and have been going back two and three times a week ever since. The Doctor says I have cancer and need an operation to extend my life, but I would never be able to play golf again. The operation might give me another year. He said I'm not going to do that. So what I want from you is let me do two and three story per month and you put run one and put two of them in a file and run them after I'm gone. I was in shock. He said I don't want to tell anyone, let's just do this. I'll play golf as long as I can and write. We did just that. Robert played golf for six or seven months, wrote three story per month, on the eighth month I received notification that he had passed away.

The last story wrote he said to me... You can tell the story if I wanted too. I ran his stories for a year all unseen unread stories from my file. Then I picked out some of my favorite stories from the past and ran them for another year.

It made me feel special that he would ask me and trust me with his stories.

We have been advertising a cart in our papers. It's called the CLAX not sure what the named means. I received one and it is really handy. It was easy to put together I assembled it in minutes.. I pushed one button and it opened up to a cart. It's very light and is very handy. I have used for laundry, carrying newspapers, outdoor market shopping, carrying things. When you are through using it push one button and it folds up into nothing. You should really take a look at this cart.

Famous people I have met... Actually when I was very young a hundred years ago... I grew up about three blocks from the Barefoot Artist. We ran around together as kids. His name was Harry Guy LaBree and he hardly ever wore shoes. They sent him home from school one day for not wearing shoes. He had holes in his (hand me down) Long hair before any of the other kids in school. I went snake hunting and alligator watching before there were laws about catching alligators. One day my new bicycle got stolen while Harry and I were sneaking up on alligators. Harry said that's why I don't have a new bike. They don't get stolen as often.

Harry became friend with some of the Seminole Indians in Dania Elementary School where he went to school and lived. He would later visited the reservation in Hollywood Florida. We went to school with the seminole Indian students 1 thru eighth.

Jimmy Jumper / One of the Osceolas, Tank Bowers, Judy Osceola, Princess Pracila Doctor. Harry was always drawing people, faces, animals and etc. Later in life he would become the Artist hired to do a lot of the tribal artistry. He hand painted the chief and the trial leaders.

I tracked him down and called him on the phone. We talked for a long time, he lived near a swamp. He had a mobile home tucked in behind a Cypress head. He had his same wife, his girlfriend from middle school. He quit school early and worked some jobs. He decided to go to Australia. They were advertising great opportunity and the wild country intrigued him. He said that was an adventure but he was promised a job that did was not real. He found another job and worked their way back to the states.

He past away a few years ago but he left some fond memories for me. I have a lot of stories about him but I say Google him he was a great artist! Harry Guy LaBree The Barefoot Artist. A childhood friend from Dania Fl.

Our country is in great turmoil, I believe it is being created first and mostly the blame is China, but our supreme United States of america Law Enforcement Agencies have been caught spying on the President of the not so United States. Our country was founded as "WE THE PEOPLE!" It time once again WE THE PEOPLE rise up and vote down Communism / Socialism. There are a couple of people in the world that want to take our country into socialism so they can gain control of us. There a couple of countries that want to take us over from within. We must not let that happen.

It was interesting fishing talk one day not to long ago. The sitting next to me while fishing and talking he explained he did not like Trump, he was a life long Democrat. He is now a Republican and he said he will vote for Trump because in his estimation he is the one that can straighten it out. He said he served his country and never thought he would see his party let him down. I said thank you for serving and thank you for sharing your story!

Help Fight Lyme Disease

You Can Help Fight Lyme Disease
(NAPSI)—As the summer months wind down, many will continue to flock outdoors and enjoy outdoor activities like hiking, camping, and fishing. What you may not

realize is that despite the weather cooling off, ticks are still very prevalent outdoors.

It is important to check for ticks after spending time in the grass or garden, as ticks can transmit a bacterial infection known as Lyme disease.

The Disease

A bull's-eye rash is one of the hallmarks of Lyme disease, but other symptoms can be non-specific and even overlap with symptoms of COVID-19. These include body aches, fever, breathlessness, eye pain, diarrhea, chest tightness, headache, fatigue or joint pain.

According to the Global Lyme Alliance, there are approximately 427,000 new cases of Lyme disease in the United States every year. However, Lyme disease is often missed—or misdiagnosed—due to unreliable testing. In fact, only 30% of people with early Lyme infections have a positive test result with existing tests

because the disease is difficult to detect in its earliest stages, even though this is when it is easiest to treat.

If you suspect you have Lyme disease or have been recently diagnosed, you can be part of the solution to improve detection of the disease in others.

How You Can Get Involved

If you've recently been infected with Lyme disease, your immune system can provide important information about how to detect and treat the disease that current tests cannot. To help advance new tests for Lyme disease, Adaptive Biotechnologies has launched the ImmuneSense Lyme study to better understand our body's immune response.

You may be eligible to participate in the study if you have signs and symptoms of Lyme disease, or were recently diagnosed and have not taken antibiotics for more than three days. To participate, you can visit a participating doctor to have your blood

sample collected or schedule an at-home visit compliant with social distancing guidelines.

Why Your Participation Matters

If left untreated, Lyme disease can become a serious illness for many people, but if caught early, it can typically be treated with antibiotics and long-term complications can be avoided. Early detection is key for early treatment and now there is an opportunity to help bring about new detection methods for this serious and often overlooked disease.

Learn More

Visit www.immunesensestudy.com to learn more about the study, and how you can be a part of the solution for better testing.

Editor's Note: This article can be of interest to anyone but is of particular use to those living in Rhode Island, Pennsylvania, Maryland, Washington, D.C., New York, Virginia, New Hampshire, Massachusetts.

CHIEF ROBERT TEMPESTA.

School Is Back In Session

This month, students will be returning to school in the tri-county area. During this pandemic, your child's safety is our number one priority. Please take

a few moments to review back-to-school safety with your child.

Walking To School

If your child walks to school, make sure there are sidewalks along the way. If you are not able to walk with your child, remember there is safety in numbers so have your child walk with siblings or other neighborhood children. Being hit by a car is by far the greatest threat to any child walking to school. Make sure your kids stay on the sidewalk and only cross at crosswalks. Remember to remind your children to never, ever stop to talk to strangers on the way to and from school and, most importantly, never to get into any vehicle with a stranger. These could potentially be life threatening situations.

Bicycle Safety

Children peddling to school on bicycles must wear bike helmets – it's the law. Helmets are the single most effective devices for cyclists, greatly reducing the risk of death or critical injury. Your children should ride their bicycles on the right side of

the road and obey stop signs and traffic signals.

Bus Ride

Children who ride the bus should never misbehave. And remember, no bullying. It's important for children to remain seated at all times, keeping their hands and feet inside the vehicle and never throw anything inside or outside of the bus. When exiting the bus, children should always cross in front of the bus – never from behind.

Drivers need to remember that Florida law prohibits passing, in either direction, a school bus that is stopped with its flashing lights activated on a two-way street or highway. If the highway is divided by a raised barrier or an unpaved median at least five feet wide, an example is US Hwy 27, you do not have to stop if you are moving in the opposite direction of the bus. Anyone caught passing a stopped school bus or speeding in a school zone can expect to get a costly fine – the Lady Lake Police Department simply will not tolerate violations that could harm a child. Please reference Florida State Statute 316.172.

Drivers must also remember to slow down in school zones. Driving slowly and carefully through school zones greatly reduces the risk of a tragic accident.

Bullying

Bullying among children is aggressive behavior that is intentional and involves an imbalance of power or strength. A child who is being bullied has a hard time defending him or herself. Usually, bullying is repeated

over time. Bullying can take many forms such as physical, verbal, emotional and cyber-bullying. Signs that your child might be bullied are: torn clothes; loss of appetite; mood changes; and/or a reluctance to go to school. It's important that your child knows they can talk to you if they are being bullied. Whenever you know that someone is the victim of a bully, you should speak up and report it right away.

Many schools in Lake County have a school resource officer or deputy. If your child is experiencing trouble with others or feels they are being bullied, please contact the school's administrative office and ask to speak to the officer or deputy.

Please ensure your child follows all guidelines set by the school in regards to social distancing, wearing a mask and remember to wash their hands prior to

eating. By keeping safety in mind, we can work together to make the 2020-2021 school year safe and successful.

ONE PERSON'S OPINION

LETTERS TO THE EDITOR

Dear editor:

Freedom Matters! It is the only thing that matters.

If that is the only thing Trump is promising vs what the opposition is promising, slavery, it is worth voting for him.

With freedom I will find a way to survive, without it I do not have a ghost of a chance. Enslaved is not the way I want to leave this world.

It is not as though we do not have plenty of examples, Hong Kong, Venezuela, Cuba, China, North Korea, for starters.

Because Trump is not polished, is that an adequate trade for freedom?

Are Seattle, Portland, California, or New York your cup of tea? Planes, trains, and buses leave daily. Thousands of miles away and they scare the excrement out of me. I would be on Durkan's doorstep if I lived in

Seattle. Hear of no one upset in Seattle.

Freedom Matters!
D.I.L.

Hi DIL

I am the publisher of the Ocala Downtown / Seniors Voice of Ocala / Village Spectator / Lady Lake Magazine. I have been receiving your letters for some time. I thank you for sending them. I run almost all of your letters because you make sense, you write well, I like what you have to say and many other things that I don't have the room to say on this email. But we strive to run all emails because every person has the right to see their opinion in print.

We receive two types of email, one is about ones self the other is about the World affairs. You have written very little about yourself but about sharing information

which is what I try to do. I put you in my upper class of writer.

The first person I put on the top shelf was Robert Balfour he was a writer for Stars and Stripes. He was a personal friend of Ike Eisenhower. We struck up a friendship and he started writing letters to the editor telling some of his war stories and pictures of him and Ike with the head military people he knew. He loved to play golf and did every day.

TomL

To the Editor

I look forward to receiving my monthly copy of The Spectator. It is always full of interesting news and quotes that is pertinent to what is going on in our area and in the world. I particularly like the news from Senator Baxley and the Editors well chosen words. Please keep up the excellent writing.

JW The Villages

To the editor,

I am issuing an appeal to all patriotic voters who embrace our Constitutional principles and way of life, whether Republican, Independent, or Democrat. My appeal is simple and is this: If you do nothing else in the upcoming election, I urge you to vote for the reelection of Donald J. Trump. Why? Because it is in your interest and the interests of your children and grandchildren to do so. The election on November 3rd will be the most consequential one in our nation's history rivaling with importance the election of 1860. The outcome will determine if we are to remain a free people living in a constitutional republic or will slide into a socialistic tyrannical government. I do not exaggerate. I wish that I did.

Those of you who are traditional democrats may be inclined to vote for Joe Biden thinking you will elect a traditional democratic administration. You will not! Joe Biden has fully embraced the socialistic platform of Bernie Sanders. The current Democrat party no longer represents the Democrat party of you or your parents. It has become captured by the radical left represented by AOC, Bernie Sanders, and the Marxist leadership of the Black Lives Matter organization. Let us explore what the plans and priorities of a Biden administration will be, along with likely consequences if the Democrats can win the Senate along with the House. These are only some of the priorities that have already been announced.

1. They will eliminate the filibuster in the Senate. This custom which has enjoyed wide bipartisan support, protects the voice of the minority and ensures that any legislation passed has broad majority support. Speaking at the funeral of John Lewis on July 30th Barack Obama falsely characterized the filibuster as a legacy of Jim Crow and suggested it be done away with, thus ensuring that a future Democrat senate would remove it. When combined with a Democrat senate and White House, this will produce the tyranny of majority rule with no effective voice for the opposition. Toxic legislation will be passed with a simple majority vote. With no opposition, voting rights for illegal aliens will be quickly passed, ensuring that no Republican president can ever again be elected, and also giving permanent control of the Senate and House to the Democrats. The green New Deal will be passed, ensuring the destruction of the economy.

2. The military budget will be slashed, opening the door for China and Russia to accelerate their mischief. With no opposition from the US, China will dominate the Far East and will likely invade and annex Taiwan at some point. Who, but amilitarily strong America would or could possibly stop them?

3. The present conservative, but split Supreme Court will be packed with new activist members who will disregard or distort the Constitution to support their own progressive agenda. New unconstitutional laws will be enacted and, if challenged, will be upheld.

A vote for Joe Biden will be a vote to put the final coffin nail in our already teetering republic and with it the loss of the freedoms we enjoy that have been bought with the blood and sweat of our forbearers, both black and white. John Adams, our second president wrote "a Constitution of Government once changed from Freedom, can never be restored. Liberty once lost is lost forever".

At the conclusion of the Constitutional Convention Mrs. Elizabeth Powell asked

Carl (Buck) Letney
Army Assault Ranger
Born 5-12-26 Missouri
Died 4-20-45 Germany

The Story of Carl Letney

“A Hero in World War II”

Carl was the youngest of twelve (12) children in his family. When Carl was eight years old the family still had a total of seven children, Carl being the youngest. The family moved to Waterloo, Iowa. Carl became an excellent athletic in both football and baseball in school. Carl Letney called Buck left his high school in his senior year to join the Army. He was trained to be an Assault Ranger and was sent to the Battle of the Rapido River where he fought for two

days trying to cross the Rapido River (north of Naples, Italy) and reach the winter line. Buck Letney lost his life on the second day of fighting on the Rapido River. No gains had been made in the capture of the Rapido or Gari Rivers and they became one of the big defeats suffered by the US Army in World War II. The AMVETS Post 31 was dedicated to Carl's memory and it is in Evansdale Iowa a small suburb of Waterloo where his statue and monument stands. Carls brother Jerry lives in the Villages.

8/4/2020 - Episode 224 - "No, The FAIRtax Will NOT Hurt Seniors!"

You've heard it before: The FAIRtax is a sales tax which is regressive; it'll hurt the poor. Another misconception is The FAIRtax will force retirees to pay tax twice.

Both of these claims are false and misleading. But why?

In this episode of FAIRtax Power Radio, The FAIRtax Guys explain why the poor, seniors and those retiring will not be hurt by The FAIRtax. As you know, The FAIRtax isn't an ordinary sales tax. This is because of the Prebate which is the nickname for "The Family Consumption Allowance". The FAIRtax Guys explain how The Prebate plus other features ensure no one is financially disadvantaged under The FAIRtax.

What are these other features? Watch, listen and find out.

Listen to this episode so you too can dispel these false claims. With more knowledge, you can help educate others and increase the number of FAIRtax Supporters. Increasing the number of Supporters for The FAIRtax is critical to making H.R. 25 the law of the land and eliminating our DESTRUCTIVE UN-American Federal-Income-Tax-System and The IRS.

Yours In Liberty! Yours In The FAIRtax!

If you have a connection to the T-Mobile and Sprint networks, keep calls to a minimum and as short as possible. This helps reduce the load on the network so others can get through.

If you are a Sprint customer on the Sprint network, you can automatically roam on the T-Mobile network if the Sprint network is affected and T-Mobile is not.

Send a text instead of making a call. Text messages get through more easily during times of congestion.

More Information

There are many options for staying up to date on response and recovery efforts: You can check the T-Mobile Newsroom at t-mobile.com/news; visit Twitter at @TMobile and @Sprint; follow T-Mobile's President of Technology, Neville Ray, on Twitter; or call 611 from your T-Mobile or Metro by T-Mobile handset. In addition, Sprint customers can call 888-211-4727. You can also get the latest storm forecasts online from NOAA's National Weather Service and the National Hurricane Center. For further facts and tips on how T-Mobile prepares for and responds to disaster events, visit www.t-mobile.com.

Support Cell Defense

Coenzyme May Support Cell Defense

(NAPSI)—As scientists are learning more about COVID-19 and how it affects the body, they are also looking for ways to support the innate immune response to infection. While more research is needed, preclinical studies lay a foundation of science to inform future human studies.

A recently published preclinical study focused on levels of a coenzyme called nicotinamide adenine dinucleotide (NAD+) in cells and animal tissue infected with coronavirus, specifically SARS-CoV-2 and lung tissue from a COVID-19 cadaver. The results revealed that NAD+ may play a key role in cellular defense mechanisms.

The researchers observed how SARS-CoV-2 impacted cellular NAD+ levels and how the virus triggered the infected cells to seek out a cellular nutrient called nicotinamide riboside (NR) in an attempt to replenish the NAD+ levels that had dropped due to infection.

In a separate set of experiments, the researchers provided NR to coronavirus infected mouse cells and showed that viral replication was significantly reduced compared to a control.

The researchers concluded that coronaviruses disturb the NAD+ system, and increasing cellular NAD+ pools with NR may aid cells' defense during infection.

What does it mean?

These scientists, from the University of Iowa, University of Kansas, and Oregon

Restaurant Reviews

Seagrass Waterfront Restaurant

10386 W Hall River Road
Homosassa, FL 34448
352-503-2007

Beautiful setting on the river with three seating areas, climate controlled indoor, outdoor deck covered screened room and open air deck of the river. Practicing Covid-19 standards, temperature taken from all patrons, observing social distancing, with table and seating disinfecting after customer departure.

Upon arriving our party of eleven, was seated during two for one drink specials of beer, wine and cocktails, a great start to our dinner adventure!

Wide assortment of appetizers from calamari, loaded potato skins, wings, fried green beans, flat breads, crab bites and beef empanadas. Apps are perfect snack or to share while watching the boats on the river or docking to eat.

Light entrees or lunch favorites consists of hamburgers, chicken or fish burgers, Shrimp PoBoy, BBQ Pork, ham and cheese sandwiches. Must try their home made potato chips!

A well devised menu for everyone's discriminating taste. I recommend having a dinner salad, generous for two to share (I didn't). It consists of fresh lettuce mixed with romaine, sliced cucumbers, the freshest diced tomatoes and choice of dressings.

Dinner entrees have a wide range of beef, poultry, pork and seafoods. My guests challenged their talent to prepare the various special plates on the menu. Our table enjoyed the Waterfront Burger, Seagrass Salad with Grilled Chicken, Parmesan Crusted Shrimp, Fish & Chips, Coconut Fried Shrimp, Key West Shrimp, Parmesan Crusted Scallops, Bread Bowl Clam Chowder, Grilled Ribeye Steak and I had Tender Juicy Pork Loin with Mashed Potatoes and the best bacon sautéed Fresh Green Beans.

We tested the chef and his kitchen staff with our order. The incredible task was to serve us at the same time with hot perfectly prepared grilled hamburger, perfect medium

rare steak, lightly grilled scallops, hot sautéed crusted shrimp, juice leaking pork loins, crispy fried fish, fries and shrimp. Must mention have Pork Fried Rice and Latino Dishes no one order. This is a destination for a afternoon or evening, that is only \$\$-\$\$\$ with Social Media selfie backdrop to remember!

M. Frank Turner

Ramen House and Boba Tea

2708 SW College Road, Suite 3
27th Ave. and College Road
Ocala, FL 34474
352-351-0998

Ramen House is clean, new, small restaurant, with indoor and outdoor seating.

When entering you place your order and they serve to your table. This is efficient because of the many Boba orders.

Boba Tea, also called Bubble Tea, is an Asian cold creamy drink with boba (tapioca balls) on the bottom, sucked through a specially designed straw to blend flavors. Boba Tea Houses grew rapidly in Los Angeles, in the 90's and still thrive today. Boba is also available in selected Starbucks, but not authentic.

Noodle Houses have trended across the US, the last 15 years. In Japan, there are noodle stands, similar to the Hotdog street vendors in New York City, the difference is seating at the noodle stands.

My wife and I both had, Miso Ramen, included bean sprouts, onion, fish cake, egg, bamboo shoots, sliced pork and noodles. They also have chicken, beef, seafood and vegetable, in miso or soy sauce base. If you've had packaged ramen, where you boil water, add the noodles and powered mix, that isn't real RAMEN!

We shared appetizers, gyoza, spring rolls and fried shumai. I had Calpico (bottled Japanese drink) and my wife had a Boba Tea.

The menu is small but everything was made to perfection! The entire meal, Boba, was tasty and service was excellent!

Have Tina help with menu choices. Remember this is authentic Ramen and blends flavors, textures of vegetables, meats with noodles in a broth. Whether you try their Boba, have an authentic Ramen or appetizers, you will return!

M. Frank Turner

CRACKER BARREL

I took my wife to lunch to Cracker Barrel they never disappoints me. My wife wanted just a hamburger, until she read the menu and she saw the cooked apples. So she ordered the Hamburger plate. The hamburger was prepared perfect, she enjoyed it. I order the fried shrimp, they served it over a bed of Steak Fries with cooked apples, cole slaw and biscuits. Everything was delicious and plentiful. After eating of course my wife needed to look around the store at some of their select items. I have done some Christmas shopping for small unique items there. I recommend the Cracker Barrel on 484 near I-75.

CRACKER BARREL Tampa Florida two weeks later same great meal.

Brisas del Mar (Mexican Restaurant)

I had the pleasure of having lunch at the

Brisas del Mar Mexican Restaurant. The menu was full of great looking meals. I just wanted a simple hamburger no bun, with lettuce and tomato. First I like hot coffee, it was hot. They served chips and salsa, that just teased my appetite and got me ready for lunch. The hamburger was served with lettuce and tomato on top of the Hamburger and plenty of fries. Half way through my lunch another big cup of hot coffee and more salsa for my chips.

The servers were friendly, I left my business card and a copy of our Village Spectator and I invited them to read our newspaper. I was satisfied with my meal and the bill was only \$11.

I would recommend you go try them, they are on 441 on the south end of Lady Lake.

DONATIONS NEEDED!

FROM THE DESK OF GOVERNOR DESANTIS

Governor Ron DeSantis Appoints Michael La Rosa to the Florida Public Service Commission

On August 21, 2020

Tallahassee, Fla. —

Today, Governor Ron DeSantis announced the appointment of Michael

La Rosa to the Florida Public Service Commission.

La Rosa, of Saint Cloud, is Vice President and Founding Partner of La Rosa Development Corporation. He is also the Co-Founder and Director of Commercial Real Estate of La Rosa Realty. In 2012, La Rosa was elected to the Florida House of Representatives, representing District 42. He has represented the District for 8 legislative sessions. La Rosa participated in the Government Efficiency Task Force in 2014, which provided recommendations to modernize government activities and processes. He earned his bachelor's degree in Interpersonal Communication with a minor in Political Science from University of Central Florida. La Rosa is appointed to a four-year term.

Governor Ron DeSantis Announces Launch of New Survey Tool for Self-Assessment and Safe Behavior Scores on COVID-19

On August 19, 2020

Tallahassee, Fla. — Today, Governor Ron

DeSantis announced the release of an [online survey](#) to allow residents, especially older adults, to make important self-assessments on their COVID-19 behaviors through the Florida Department of Elder Affairs (DOEA).

The survey asks Floridians to review their decisions with respect to COVID-19 situations, to see how different actions affect their own health, and the health of others. The Florida Safe Survey allows individuals to have a tool at their disposal that fully engages them in the outcomes of their actions.

“Protecting Florida's most vulnerable has been my administration's main focus during this COVID-19 pandemic,” said **Governor DeSantis**. “With the Florida Safe Survey, we hope to further mitigate the spread of this disease and bring another layer of protection to those most at risk of severe symptoms from COVID-19.”

“With today's announcement, Floridians

across the state have a new opportunity to make a difference during these unprecedented times,” said **First Lady Casey DeSantis**. “This is a chance for Florida's aging population to ensure they are doing everything they can to get the best Safe Behavior Score possible with respect to COVID-19. Through this incredible innovation, we are given the opportunity to save lives.”

“Governor DeSantis knows Floridians are resilient, and he has worked tirelessly to bring Floridians together in the fight against COVID-19,” said **DOEA Secretary Richard Prudom**. “This survey furthers our effort by allowing all residents to get actionable and responsive feedback from their survey results and unite in their actions against COVID-19.”

The self-audit is available at [FloridaSafeSurvey.com](#) and takes only a few minutes to complete. Respondents of the survey may anonymously answer questions such as the amount and type of their weekly activities, the number of people in their household, their ability to receive physical or mental health assistance if needed, and the types of preventive measures used on a regular basis.

The Safe Behavior Report offers customized recommendations for each respondent and guides them to different

local, state, and national resources based on their answers to questions on geographic location, lifestyle, and personal experiences. The survey allows individuals to evaluate choices they make in everyday situations and possibly change future results based on behavior modifications.

“Through every phase of development, the team at DOEA was constantly ensuring we were best addressing the needs of Florida's older population,” said **James Firman, CEO of BellAge** — the company designing the survey and pairing it with data-driven analytics for risk assessments. “DOEA has helped us create an impressive prototype that's now being reviewed by several other states around the country.”

Anyone may take the Florida Safe Survey and view the invaluable results of The Safe Behavior Report. Additionally, Floridians may take the survey multiple times to see how any changed behavior may affect their health score. The resources, however, are selected from the Florida Aging Network pantheon of services most suited for older adults.

DOEA's 11 Area Agencies on Aging will assist in announcing and distributing information about the Florida Safe Survey by working with local service providers and volunteers to get the survey in front of Florida's most vulnerable population.

FROM THE DESK OF ATTORNEY GENERAL MOODY

Attorney General Moody Expands Price Gouging Hotline to Cover Hurricane-Related Commodities as Tropical Storm Laura Approaches

TALLAHASSEE, Fla.—Attorney General Ashley Moody today expanded Florida's Price Gouging Hotline to receive reports of extreme price increases on essential commodities needed to prepare for the approaching storm. The expansion comes as Governor Ron DeSantis [declares a state of emergency](#) for Tropical Storm Laura in the following counties: Bay, Broward, Calhoun, Charlotte, Citrus, Collier, DeSoto, Dixie, Escambia, Franklin, Glades, Gulf, Hardee, Hendry, Hernando, Hillsborough, Jackson, Jefferson, Lee, Levy, Manatee, Miami-Dade, Monroe, Okeechobee, Palm Beach, Pasco, Pinellas, Santa Rosa, Sarasota, Taylor, Wakulla, Walton and Washington. Florida's price gouging laws for this event only apply within the area of the declared state of emergency and only for commodities and services essential to preparing for or recovering from the storm event.

The price gouging laws remain in effect statewide under the emergency declaration in response to the COVID-19 pandemic in March for [commodities that relate specifically to the health crisis](#). Other storm-related state of emergencies continue as a result of Hurricane Michael for 14 counties and Hurricane Isaias for 19 counties on the east coast of Florida.

Attorney General Ashley Moody said, “Floridians should prepare now, with enough food, water and other essential items needed in case this storm strikes their

community. With the declared state of emergency, I am expanding my Price Gouging Hotline to receive reports of extreme price increases on the essential items Floridians need to be prepared. If you see potential price gouging, please report it immediately so we can ensure Floridians are able to prepare without the added stress of excessive prices.”

During a storm-related declared state of emergency, state law prohibits excessive increases in the price of essential commodities, such as food, water, hotel rooms, ice, gasoline, lumber and equipment, needed as a direct result of the event. Anyone who suspects price gouging should report it to the Florida Attorney General's Office by using the NO SCAM app, visiting [MyFloridaLegal.com](#) or by calling 1 (866) 9NO-SCAM. The Attorney General's NO SCAM app can be downloaded for free through Apple and Android stores by searching NO SCAM.

Preparedness tips can be found by downloading Attorney General Moody's 2020 Hurricane Preparedness guide [here](#).

For tips on reporting price gouging, visit [MyFloridaLegal.com](#).

For more information on price gouging, visit [MyFloridaLegal.com](#).

For more information about price gouging associated with the statewide COVID-19 emergency declaration issued in March, visit [MyFloridaLegal.com](#).

Violators of the price gouging statute are subject to civil penalties of \$1,000 per violation and up to a total of \$25,000 for multiple violations committed in a single 24-hour period. In addition to the civil penalties for price gouging, state law criminalizes the sale of goods and services to the public without possession of a business tax receipt.

Attorney General Moody Hosts Symposium with Federal and State Agencies Regarding COVID-19 Schemes Targeting Medicaid

TALLAHASSEE, Fla.—Attorney General Ashley Moody today hosted a COVID-19 related Medicaid fraud symposium with federal and state agencies. Representatives from all three of Florida's U.S. Attorney Offices, the U.S. Department of Justice, the U.S. Health and Human Services Inspector General's Office and the Florida Agency for Health Care Administration participated in the virtual event. The discussion focused on the recent increase in Medicaid enrollment nationwide and fraud related to the COVID-19 pandemic. The group also discussed ways state and federal agencies can partner to protect taxpayer money and stop fraud and identity theft amid the current health crisis.

Attorney General Ashley Moody said, “My Medicaid Fraud Control Unit has been working throughout this pandemic to identify, investigate and stop fraudsters exploiting this important taxpayer-funded health care program. As a result of this health crisis and the resulting economic downturn, Florida is experiencing an increase in Medicaid enrollment. The goal of today's symposium was to bolster our individual and collective efforts to stay ahead of fraud trends related to the increased enrollment and COVID-19, and strengthen partnerships vital to upholding the integrity of the Medicaid program in Florida.”

U.S. Attorney for the Middle District of Florida Maria Chapa Lopez said, “Federal and state healthcare programs, such as Medicaid, are designed to assist people with limited income and resources during their time of greatest need. Criminals that target these programs or their beneficiaries during this national health crisis, or at any other time, can expect that we will join with our federal, state, and local partners to investigate and prosecute them to the fullest extent of the law. Today's symposium represents that commitment.”

Special Agent in Charge Omar Pérez Aybar of HHS OIG said, “Our oversight agency is dedicated to protecting beneficiaries of Medicaid and other federal health care programs, as well as safeguarding the financial integrity of those programs. With our law enforcement partners, we are aggressively targeting COVID-19 fraud schemes, bringing fraudsters to justice and warning the public about these scams. Today's symposium demonstrates the law enforcement community's commitment to efficiently and effectively shut down fraud, waste, and abuse during this unprecedented public health crisis.”

Attorney General Moody's MFCU works regularly with the state and federal agencies that participated in today's symposium to identify, investigate and prosecute Medicaid fraud cases. During the event, the participants discussed the increase in Medicaid enrollment and the opportunity the increase could create for criminals to exploit the government program to steal taxpayer money. The group also discussed ways to detect and prevent identity theft related to Medicaid and the pandemic, as well as fraud schemes designed to steal stimulus payments.

Earlier this year, Attorney General Moody issued a Consumer Alert warning Floridians about long-term care facilities seizing the stimulus payments of residents in the Medicaid program. To view the alert, visit [MyFloridaLegal.com](#).

Additionally, health care providers must remember to not seek payment from Medicaid recipients for co-payments, co-insurance, deductibles, or other cost-sharing during the declared state of emergency. On March 16, Florida Medicaid waived co-payment requirements for all services. Florida Medicaid also indicated it will pay for medically necessary services provided to Medicaid recipients diagnosed with COVID-19, regardless of whether the provider is located in-state or out-of-state.

National Museum to Honor All Soldiers

Upcoming National Museum to Honor All Soldiers

(NAPSI)—If you or someone you know is a soldier, Army veteran, Army family member or other proud military supporter, you can become a permanent part of history at the National Museum of the United States Army.

An historic project led by the Army Historical Foundation and the U.S. Army, the Museum is going up at Fort Belvoir, Va., just south of Washington, D.C.

“We are proud to build a national museum that will tell the history of the Army—and our nation—through the eyes of American soldiers,” said Foundation President U.S. Army Retired Lt. Gen. Roger Schultz. “The timeline for opening the Museum was delayed because of the COVID-19 pandemic, but we promise it will be worth the wait.”

To be included in the Museum's story, soldiers and Army veterans can submit their stories of service in the Registry of the American Soldier, which will be one of the largest collections of American Soldier

profiles ever assembled. Stories can also be submitted on a veteran's behalf, at no cost. The Foundation currently features the Registry on its website and the collection will be made available on kiosks in the Museum. Stories can be submitted at www.armyhistory.org/the-registries/.

Members of the Army community can also be a permanent part of the Museum by ordering a customized commemorative brick to be laid on the grounds of the Museum. More than 8,000 bricks have already been installed, honoring soldiers from all 50 states. Among the bricks are those for such well-known Army veterans as Senator Bob Dole and General Eric Shinseki. Individuals and organizations can order bricks at

www.armyhistory.org/bricks.

To stay up to date on the project, including announcements about opening day, visit www.armyhistory.org.

Keep More Of Your Money

Five Fast Tips To Keep More Of Your Money

(NAPSI)—With day-to-day activities affected by the coronavirus, many people greatly reduced their spending. While saving money is great, a solid financial plan is even better. Here are hints on how:

1. **Make a budget, but focus on the things that you can control.** You can't change your mortgage or rent payment

overnight, but you can eat more meals at home.

2. **Clear the clutter, but keep the cash.** You can use sites such as Declutter, Facebook Marketplace and Offer Up to profit from the things you no longer need.

3. **Simplify your subscriptions.** Today there are subscriptions for everything from entertainment to plants. It's easy to lose track of how much money you're really spending. Make a list and do away with subscriptions you don't fully use.

4. **Plan major purchases.** If you'll need a new dryer, roof or car, figure out how much it will cost so that you can start saving.

5. **Buy used or refurbished**

electronics. You can find great smartphones, laptops and other electronics in good condition on such sites as Gazelle, Swappa or eBay. Another tip for saving money is to use Upsie for the most affordable warranties for your electronics, appliances and more. Upsie also offers warranties that include accident protection for used devices.

Internet From Space

How Internet From Space Brings Faster Internet To Rural Areas

(NAPSI)—For many in the American countryside, signals from space have been most welcome for some time. That's because, in many places, that's the best way to get Internet service: via satellite.

Then and Now

While early systems may have been only a little better than dial-up, enormous improvements in high-capacity satellites mean they can deliver faster speeds and more data at a more affordable price.

How It Works

Satellite Internet doesn't rely on terrestrial connections. That's why it can keep people connected every day and even during disasters when other systems may be down. Instead, the Internet signal is delivered to a connection, which then sends the signal via radio waves up to the satellite over 20,000 miles in the sky. The signal comes back down to your home or office and is captured by a dish-shaped antenna, outside your home, which is connected to the Wi-Fi modem.

The Benefits

Closing the digital gap: Even though the technology is complex, Viasat's goal is simple: to make high-speed internet accessible just about anywhere, even the most hard to reach places. Many people are seeking the joys of rural living, but remote communities may not have the

infrastructure needed to access traditional Internet service at home. Viasat is available where traditional internet service providers don't go.

Keeping people connected: This is more important than ever these days with so many working and attending school from home, accessing telemedicine, watching videos, playing games and connecting remotely with family and friends. You can use Viasat Internet to email, chat, collaborate on documents, pay bills, do research, and much more.

Continuous improvements: More satellites are under construction, Viasat will add even more capacity throughout the U.S. in the next few years. That means faster speeds and the ability to handle more and more data from applications such as video streaming.

Availability: In many places where cable and fiber don't go, satellite is there. For example, Viasat reaching some of the most remote parts of the country.

Great Coffee on The Road

Fuel Your Adventures with Great Coffee on The Road

(NewsUSA) - Sponsored News - Whether you are in a hotel room, at your

desk, in an RV, or by a campfire, it can be difficult to get a good cup of coffee away from home. With the holiday travel season in full swing, travelers are wondering how best to enjoy their morning java while on the go.

Most away-from-home coffee options have major drawbacks. Hotel room coffee makers are convenient and cheap, but the coffee they brew means a major compromise on taste. Local cafes often offer good coffee, but the cost of all those to-go cups can really add up.

Existing travel coffee presses offer a way to brew while on the go, but they typically brew slowly and therefore brew a bitter and very acidic cup.

Travelers benefit from being able to brew delicious coffee quickly and easily wherever they are. Luckily there is a perfect way to do just that.

The AeroPress Go travel coffee press brews up to three cups of delicious hot or cold brew coffee that is richer, smoother, and lower in acidity than coffee brewed by other travel presses. Simply add ground coffee and water, stir briskly, press, and enjoy a cup of hot or cold brew coffee in just a minute or two.

The AeroPress Go travels self-contained in its own mug with a lid, making it easy to fit in a suitcase, in a desk, with camping gear, in an RV or in a backpack. It is compact, lightweight, and durable, making it easy to transport. And it cleans up in just a few seconds with a quick rinse.

The AeroPress Go's ability to make cold brew coffee is a big additional advantage because it can be used where there is no access to hot water. Wherever you go, there is almost always a source of water, but often no way to heat it. Use the AeroPress Go to join the hot new trend of drinking coffee that's an amazingly smooth, rich cold brew. With the AeroPress Go, it's easy

to brew a cup of cold brew using unheated water in about two minutes.

Visit <https://aeropress.com/> for more information about how to brew great coffee on the road.

Coenzyme

Continued from page 9

Health & Science University, will continue to study how cells use NAD+ while mounting a defense against coronaviruses such as SARS-CoV-2, which causes COVID-19.

As the science moves forward on COVID-19 and NAD+, additional studies will need to be done to understand the role of NAD+ in immune stress in humans.
