

TAKE THAT FLAG DOWN!

Villages Florida: There is a running controversy over a resident displaying the flag. This is not a good thing to be on the wrong side of, especially right now! It does not have anything to do with Villages management; it has to do with residents in the community. There are yard ornament regulations.

Joe and Peggy, residents of the beautiful but massive community of the Villages, have a flag displayed in their yard. They were notified that they would have to take it down because it was classified as a lawn ornament. The residents say the flag is the flag, no matter how you display it. They are

showing their patriotism in the only way they know how.

The flag is on a bracket that holds it in place rain or shine. It has a light on it. It stays in place in the wind also and the flag is replaced when needed.

A complaint was filed by whom, we don't know. Joe is a veteran and says it means a lot to display his flag!

A five-member community board will rule on whether the residents have to take down their flag. Joe could face a fine of \$25 per day after notified if he doesn't take it down! I think the Committee will vote to leave it!

Nothing but networking was held this month at the Waterfront Inn. At the end of the meeting I give out my newspapers. This table held up the

newspaper while a photographer snapped the photo. I was in the picture if you can see my hand holding a newspaper, bottom left.

A friend sent me this picture off the internet. It is a picture of the massive group of people walking toward our southern border. Some say it is 7,000 immigrants. I say it's an Invasion because if you notice they are carrying the flag of their country, not the flag of the United States.

Reporters have infiltrated the group and they say there are plenty of bad guys mixed in with them: gang members, ISIS members, Taliban fighters. Mostly, they are immigrants, but we must figure out a way to stop the group coming.

Mark DuShane of DuShane Management, Inc. invited friends and family to a meet and greet with Senator Dennis Baxley. It was held at Recreation Plantation RV Resort. Upon arrival I was greeted by the Owner of Recreation Plantation Grant Gore, Sue Kelly the director of the Lady Lake Chamber was there promoting the event and of course Mark DuShane himself. It was one of the most laid back meetings I have ever been too. It

started out with a talk about what was going on in Tallahassee but it was not long before I realized Senator Baxley was sitting comfortably in the middle of the group and everyone was listening, then later asking questions. No smart phones, everyone was paying attention. It was a good event. Thank you Senator Baxley for your service. He is OUR State Senator!

FLORIDA COMMUNITY BANK: FABULOUS BANKING IN THE SUNSHINE STATE.

At Florida Community Bank, we understand our customers lead diverse and busy lives. Whether traveling around the world, taking care of their families, or juggling a full-time class schedule, they require a bank that goes where they do. It's all about financial freedom, that's why FCB offers Mobile and Online Banking services with powerful, cutting-edge technology. Giving our customers what they need in a perfectly personalized way, is how FCB connects to the communities we serve. Through strength and soundness, by giving back in our philanthropic efforts, our customers know they can depend on us.

A.J. "Tony" Powell

AS I SEE IT

by A.J.(Tony) Powell
"America for Americans?"
Immigrants -vs- Invaders!

Univision, Judicial Watch and others report that many 'Middle Easterners' are in the caravan. In fact, the President of Guatemala claims to have arrested over 100 of them.

One source alleges that about 20% or approximately 44 million of the world's international immigrants live in the United States.

Already, in the USA this year over a half

million people have been detained for violating US borders in the South-Western States and that number continues to rise.

The vast majority are from Guatemala, Honduras and El Salvador.

Right now the so-called 'caravan' of illegals dominates the evening news.

You'll notice that women and children are shown at the front as a cover for thousands of unemployable young males. Who, of course were seen as they physically attacked Mexican border police.

President Trump has said "We have

informed the countries of Honduras, Guatemala and El Salvador that, if they don't stop their citizens, all (USA Government) payments will STOP!"

Of course, the invading army of illegals is still a 1,000 miles away. But we can expect a fleet of trucks, buses and cars to show up sometime soon.

President Trump has said he will send the U.S. military to the border.

But, just like the Japanese in WWII (And others) the 'Invading Commandos' will push their own women and children to the front, in the hope that they can provoke gunfire from the American defenders. More 'Good Stuff' for the evening news.

A mysterious group calling themselves

"People Without Borders" is orchestrating this stunt. Where they get their money is unknown.

The question that I've never seen or heard discussed in "Does a country have a right to exists?"

The communists, like China and Russia seem to think they do. Not only protecting their land and their people, but even taking over their neighbors by force.

Israel has been open and honest for decades. "This is our country and we will kill to defend it".

For whatever reason the 'Europeans' have, for centuries, fought one another to defend their land, but, since the beginning of this century they have opened the floodgates to invaders from all over the world.

It's been said many times- "A country that doesn't control its borders ceases to be a country."

American Democrats insist "We're not for open borders."

But they support the so-called Sanctuary Cities; Demonize ICE and label Patriotic Americans as 'Xenophobes'. {xenophobe. noun. A person who hates or fears foreigners or strangers}.

I don't think that citizens who love America 'Hate or fear foreigners!'

It's a fact that over half of all illegal invaders have been and will be poor, uneducated and dependent on welfare and other social services all charged to working, tax-paying Americans.

United States Law offers foreigners a simple immigration procedure. Apply IN YOUR OWN COUNTRY an American Embassy/Consulate and qualified applicants will get a visa. Of course there is a built-in 'quota bias' against Europeans (Which also works to minimize the number of Canadians and applicants from Australasia).

'Natural-born' Americans have to support themselves, contribute to society and obey the law – Why should foreigners do any less?

As I see it; if you're born and raised in America – you're an American.

If you're not – you're not!

It's not that complicated.

'til next time (AsISeeltTP@GMail.com)

PUBLISHER'S NOTES

We are Statewide Award Winning. Yes we are. The Community Papers of Florida had their state conference at Hutchison Island and Resort, a great spot for a conference. At the end of the two day conference we got the results of our competition. We were in the top three in five categories for TomL Publishing LLC: Color Photography was by Wendy Netherclift

Best Home Page was by Chris Boody

Three editorial awards that I share with several stringers! We are proud!

Alex Baldwin the actor said we must overthrow the United States Government under Donald Trump. Last month I was chastised by a reader when someone was discussing a civil war and now there is talk coming from well-known actors, actresses, and well-known democrats like Elizabeth Warren, Chuck Chumor, Hilliary Clinton

and more about civil disorder. Even Obama who probably started some of this when he started siding with the criminals instead of the police officers. Be careful what you wish for! Even in our small community our Sheriff was taken out of office and five deputies were charged with beating up a drug dealer, four of the deputies serve time, one was found innocent and another deputy went down during the court case because he would not turn on the other deputy that said he was innocent. Do you know what the sad part is? The convicted drug dealer is now suing the deputies! What do you think about that? tloury@att.net

I was harassed by a reader last month about quoting what a historian and publisher said. He had predicted if things keep going the way they are, we could end up in a civil war. The reader said that would never happen. The other day Eric Holder said when they go low you kick them. The former Attorney General is telling people to assault Republicans! Hillary is talking the

same trash. If that is not the beginning of something I don't know what is! I think most of the people talking this trash are guilty of crimes against the people and are trying to distract Law Enforcement.

Newsprint shortage! I have been hearing from the industry that there will be a newsprint shortage. Some good news came out of an associate in Georgia that a paper mill that had been shutdown by Obama regulations has started back up because of the Trump deregulations. That is a mixed review. I think it makes sense that the mills will increase production because of the loosening of the regulations. Some of those same mills have increased production of toilet paper because of the increased usage in Washington (joke)!

There are several local candidates I like in this election. The main one is State Senator Dennis Baxley. He is the person who wrote the Stand Your Ground Law. He has caught a lot of grief over it but it has saved many lives. He is constantly defending it, because of the bad guys and their attorneys are constantly trying to misuse it. You can't shoot a person in the back and then say "I was standing my ground!"

The other candidate I like is in the Marion County School Board race. Shelia Arnette has a lot of energy, is smart and has the

students in mind when running for office.

Political Mailers: Some politicians believe in them and will spend thousands of dollars doing them. The Post Office does their job delivering them, but at the PO the other day, I saw two garbage cans full and over flowing of political mailers. I took a picture but decided not to run it because it would embarrass some people. I challenge the people spending money to mail. Ask the Post Office how many were in the garbage can in the lobby? It is a shame. If I was mailing like that I would ask the post office for the left overs mailers also. Ask about the mailing list being purged. When you send to every voter each household receives at least two or even more. The husband gets one, the wife gets one, the son gets one, the son's wife gets one. There is no magic to it but it is always good to follow up. I save one per candidate and get rid of the rest.

Kanye West went to the White House to see if he could get some help in cleaning up Chicago. He has been harassed, threatened and called names because he wants to help his people in Chicago. Jim Brown went to the White House to help Kanye West and to endorse the President of the United States and to see if he could help with the race relations problems. Again the left is using minority people to fight their battles and

Do Writing Projects Scare You?

Tips from the Editor

From published novelists to writers of how-to books or memoirs—anyone can be intimidated by the writing process and plagued by questions like these:

Where do I begin?

How can I avoid

common mistakes? How can I make my project sound more professional? What's my

next step?

Developmental editor Karin Nicely, owner of Writing Nicely, will be helping local authors address these and other questions in her upcoming **Tips from the Editor—Introductory Workshop** on November 12, 2018, from 10:00 a.m. to noon at the The Villages Hampton Inn.

“Writers of all levels and varied genres can learn ways to overcome their writing challenges in a casual, welcoming atmosphere while enjoying the opportunity to interact with other authors. Writing should be fun—not scary!” said Ms. Nicely, who has worked with international publishing houses such as Prentice Hall and Wiley and now specializes in editing works of independent authors of fiction and nonfiction.

Unlike most writing coaches, Ms. Nicely

approaches the writing process from an editor's point of view.

“Many people think editing is just about grammar and sentence structure, but it deals with so much more. Often, I see manuscripts with basic structural issues, major inconsistencies, and other problems that could have been addressed before or during the writing process. With these out of the way, the writer and editor can pay more attention to things like style, voice, fictional elements, or simply producing a well-written project their audience will enjoy.”

In addition, Ms. Nicely can connect attendees with page designers, cover artists, illustrators, and publishers to help make their dream of publishing their own book or e-book a reality.

Tickets for the November 12th workshop are available at

www.facebook.com/writingnicely and Eventbrite.com. Space is limited, and

the cost is \$30 per attendee.

If you would like Ms. Nicely to speak at your local writer's group, book club, or other event, contact her at 352-390-4818 or knwrite435@gmail.com.

FLOW Mobile Deployed

Gov. Scott: FLOW Mobile Deployed to Gulf County

TALLAHASSEE, Fla. — Today, Governor Rick Scott announced that the Florida Department of Highway Safety and Motor Vehicles (DHSMV) will deploy a Florida Licensing on Wheels (FLOW) vehicle tomorrow, October 23rd, in Gulf County. These vehicles provide driver license and other motor vehicle services to families impacted by Hurricane Michael. Additional FLOW mobiles are in Bay, Franklin, Jackson and Liberty counties.

The FLOW Mobile in Gulf County will be located at:

Gulf County Tax Collector Office
151 North 3rd Street
Wewahitchka, FL 32465

Hours of operation: 9am – 4pm, CDT

FLOW mobiles provide customers the following services:

- Renew or obtain a Florida driver license and/or ID card;
- Replace a driver license and/or ID card;
- Change a name or address on a driver license and/or ID card;
- Renew a vehicle registration;
- Obtain or renew a disabled person parking permit; and
- Purchase a specialty license plate.

FLOW mobiles also offer DHSMV's critical safety services such as registering emergency contact information. For a list of what to bring, please visit flhsmv.gov/whattobring. Customers renewing a credential, updating an address or renewing a registration may also visit GoRenew.com to renew online.

DENNIS K. BAXLEY

Dear Friends,
Yesterday, the Florida Supreme Court ruled that Governor Rick Scott would not be able to pick the next three Supreme Court justices. Despite the fact that this seems like a blatant violation of

conscience, or face heavy fines and jail time. California and Gillum want judges who will take away your 2nd amendment rights, and strip your ability to take responsibility for yourself and others. That is not what Florida wants, and that is not what a Governor DeSantis will want.

All around me, I see apathy, but the great thing about apathy, is that a few people...can make a big difference! You are reading this today, because you are not apathetic, and because you are those few people, and you will make a big difference on November 6th.

Onward & Upward,
Senator Dennis Baxley

the separation of powers, we still have a chance. Despite the absurdity of a clearly partisan court ruling in their own favor (fox guarding the henhouse?), we still have a chance. Despite the democrats, nominating a man (who is under FBI investigation for corruption, by the way) who hates our constitution, despises our country and her laws, we still have a chance! We still have a chance to elect a Governor, who will stand up to the Supreme Court and end the practice of legislating from the bench. We still have a chance to elect a Governor will pick justices and judges who know the constitution, love the constitution, and will interpret the law, as it is, not by how they think it should be. We still have a chance, to tell our friends and neighbors, that the policies and decisions of a far left socialist like Andrew Gillum, may be what California wants, but that is not what Florida wants. California and Gillum want judges who protect sanctuary cities, and turn loose criminal, illegal aliens back on to our streets. California and Gillum want judges who tell private businesses that they must offer a service, even if it violates their

Publisher's

Updates on Hurricane Michael

Gov. Scott Issues Updates on Hurricane Michael Response

TALLAHASSEE, Fla. – Governor Rick Scott is in constant communication with federal, state and local emergency management officials and state agency leaders to ensure that communities impacted by Hurricane Michael are receiving the resources they need. Governor Scott has surveyed damage from Hurricane Michael in Bay, Gadsden, Washington, Liberty, Calhoun, Gulf, Holmes, Wakulla, Franklin and Jackson counties. Yesterday, the Governor issued [Executive Order 18-283](#) which gives Supervisors of Elections in Bay, Calhoun, Franklin, Gadsden, Gulf, Jackson, Liberty and Washington counties the authority to extend and enhance voting options based on needs and challenges they have identified.

Following Governor Scott's request, President Donald Trump issued a Major Disaster Declaration for Hurricane Michael. See the declaration at www.flgov.com. On October 7th, Governor Scott declared a state of emergency in 26 Florida counties, and expanded it to include 35 counties total on October 8th. To see his Emergency Order, go to www.flgov.com.

Governor Scott's request for Transitional Sheltering Assistance (TSA) has been approved for Bay County, meaning that FEMA will be providing more options for places for families to stay, including hotel rooms. **Following Governor Scott's request, FEMA has approved enhanced flexibility for TSA in Bay County that will open availability for families in this program to stay in condos and other rentals.** For more information and to apply for FEMA's TSA program, visit www.DisasterAssistance.gov.

STATE PREPAREDNESS ACTIONS FOOD AND WATER

The state is working to ensure adequate food resources are available for Florida residents impacted by Hurricane Michael, prioritizing based upon need. Specific activities include the following:

Law enforcement escorts have been arranged to expedite food and water resources.

Food and water commodities are being airdropped into the hardest hit counties.

Approximately 7 million meals are being distributed.

Approximately 2 million gallons of water are being distributed.

Approximately 3 million pounds of ice are being distributed.

Emergency Supply Distribution Centers, or Points of Distribution (POD), are places where the public can pick up emergency supplies following a disaster. These sites have food, water, or other critical supplies.

FUEL

There are no reported widespread fuel shortages.

Florida SERT made first responder fueling depots available to utility crews across the Panhandle. This helps ensure that utility restoration trucks have the fuel they need so they can restore power faster.

More than 750,000 gallons of fuel is staged to be distributed at fueling stations to support restoration efforts in the impacted areas.

There are currently 133 fueling trucks being used to distribute fuel.

To find the latest information on gas stations that have fuel and power in the impacted area, Gas Buddy is providing up to

date information here - <https://tracker.gasbuddy.com/>.

COMMUNICATIONS

Governor Scott laid out his expectations for telecommunications companies that are experiencing prolonged service outages in the areas impacted by Hurricane Michael.

Any Floridian in the impacted counties should be allowed to switch providers without penalty;

Bills for Floridians in impacted counties that have been without service should be waived for the month of October; and

Telecommunications companies should be open and transparent with Floridians and do so with a clearly communicated plan to quickly restore service.

More than 2,000 personnel are working to restore cell service and communications in the impacted areas.

Comcast has sent the Xfinity "WiFi on Wheels" or "WoW" van to provide free wireless internet service so residents and emergency personnel can stay connected.

The vehicle is set up at the Lynn Haven Walmart Supercenter at 2101 State Road 77, Lynn Haven, FL 32444. The customized van is outfitted with six WiFi access points, which can provide wireless internet connectivity to approximately 3,000 users over a 500 square foot area.

Comcast announced yesterday that it is suspending billing from Oct. 10 forward, suspending late and missing payment fees, as well as missing equipment fees, and replacing damaged and missing equipment for free.

Comcast will also be providing account credit for Xfinity Mobile customers with outstanding balances for next three months. More information is available at: <https://florida.comcast.com>

Communications support packages have been dispatched through the Commercial Service Providers and Florida National Guard to Holmes, Liberty, Jackson, Gadsden, Calhoun, Gulf, Franklin and Washington counties.

At the direction of Governor Scott, Florida Highway Patrol escorted cellular service provider crews to the affected areas.

POWER RESTORATION

To view the full list of Florida utilities with mutual aid agreements in place.

Florida SERT made first responder fueling depots available to utility crews across the Panhandle. This helps ensure that utility restoration trucks have the fuel they need so they can restore power faster.

Following Governor Scott's offer to each utility in Florida of additional push crews to augment the ability of power restoration workers, five utilities have drawn down push crews. Push crews will go in advance of utility crews and clear their paths so the utilities can focus solely on getting power restored. There are currently 25 push crews working in impacted areas.

Governor Scott directed the Florida Department of Transportation to organize, lead and mobilize push crews to expedite power restoration.

Generators have been mobilized to impacted counties to bring traffic lights online, which will alleviate the need for law enforcement to direct traffic.

Governor Scott also requested assistance from Manny Miranda, Florida Power and Light's Senior Vice President of Power Delivery, to advise and assist the state's power restoration efforts.

Lady Lake Police

CHIEF CHRIS MCKINSTRY

SEASON OF GIVING BACK AND MOVING FORWARD

Each holiday season, I reflect on the year past and give thanks for all life has provided. I also wake up every day humbled and grateful to serve the good people of Lady Lake in the greatest job in the world.

For many, however, the holidays are far from joyous. Sadly, many in our community struggle with day-to-day needs and are unable to put food on their tables – let alone buy gifts for their kids. No child should spend Christmas hungry. No parent should have to explain to their children why they didn't receive a gift for Christmas.

This holiday season, as in years past, the Lady Lake Police Department is planning to once again coordinate with other law enforcement agencies and host the "Santa's Shop With A Cop" Event. School-aged children, chosen by their school guidance staff, will be given a special invitation to go shopping with law enforcement officers. The event allows deserving children and police officers a chance to make some fun Christmas shopping memories.

We couldn't do these community service projects without the support of numerous partners, including the Kiwanis Club of Lady Lake, the American Legion Auxiliary Post #347, and Orange Blossom Gardens Lions Club. These incredible non-profit organizations support us all year round with everything from bicycle safety to anti-

bullying projects. These programs promote public safety and assistance in Lady Lake, but more than anything unite our community as a whole.

While December may be the season of giving, our commitment to the Lady Lake community extends year-round at the Lady Lake Police Department. Partnering up with a variety of altruistic businesses and charities including Target and Home Depot – which defrays the cost to taxpayers – the Lady Lake Police Department hosts or sponsors a multitude of events ranging from our bicycle safety initiative, a program created to build positive interactions between children and law enforcement to our Scam Jam Shred-a-Thon to help prevent identity theft.

Why do we do this? As Chief of Police, it is my job to ensure the safety of all Lady Lake residents. I know the best way to protect Lady Lake is not only to catch bad guys who committed a crime, but to prevent crime from occurring in the first place. Helping to relieve the stresses of hopelessness, frustration and

despair is part of the solution. Proactive policies, such as community policing, strike at the heart of the problem before it spirals out of control. Troubled individuals are far more likely to steer clear of crime when their basic needs for food, shelter and treatment are met.

The men and women of the Lady Lake Police Department give their time and devote their lives to ensure the betterment of our community. We're not just here to protect you from danger and respond to life-threatening emergencies. Our jobs, our mission and our commitment lie in how we can make the lives of all Lady Lake residents better. The Lady Lake Police Department is much more than just a law enforcement agency -- we're part of the community.

To all my friends and neighbors: Have a healthy, happy and safe holiday season.

Medicare Open Enrollment

Your Medicare Open Enrollment To-Do List

Your Medicare Open Enrollment To-Do List

(NAPSI)—Medicare's annual enrollment period is now underway, and runs from October 15 to December 7, 2018. You may be happy with your current Medicare coverage, but it pays to shop around. Here are a few things to keep in mind.

Don't shy away from shopping. Plan details change each year, so the policy that was best for you in 2018 may not be your best option for 2019. Changes to premiums, deductibles and co-pays can be costly. An analysis of more than 17,000 people using Medicare.com to compare Medicare plans found that just 10 percent were enrolled in the lowest-cost plan for their prescription drug needs. Those who switched to a new drug plan stood to save an average of \$611.

Watch for changes in drug coverage. Read any letters from your insurance company outlining changes in your prescription drug coverage. Insurance companies often tweak their formulary, or list of covered drugs, each year. That can mean higher out-of-pocket expenses for you. Compare coverage for your prescriptions under any new Medicare plan you consider.

Be sure your doctors participate in your plan. Double-check to make sure your preferred doctors will still be part of your health plan's network next year. You'll pay more to see non-network providers, and some health insurers won't cover out-of-network providers at all, except in an emergency.

Compare services. Medicare Advantage plans tend to offer additional benefits you can't get with Original Medicare. These can include dental, vision, hearing and even fitness benefits.

Shopping for Medicare plans can seem daunting, but there's a range of services out there to help enrollees navigate them. Read up on your options and don't hesitate to work through a licensed agent to help match you with the best plan for your needs.

ONE PERSON'S OPINION

LETTERS TO THE EDITOR

Dear Editor"
Words Matter
Absolutely!

Let us try, protest, assault, and abortion for starters.

Protest: an act or statement of disapproval.

Assault: violent physical, or verbal attack

We have free speech, which some claim they are exercising. But I find it extremely difficult to determine what I am witnessing. Is expectorating {spitting on people} protest or assault? How about disturbing people out for dinner? Or publishing private info on the net, or showing up at people's homes {their castles} and disturbing them or, smashing storefronts, and stealing merchandise, or, smashing cars? Or otherwise destroying other people's property?

Is this free speech, protest, assault, or criminal behavior? Help me, I am having a difficult time deciding.

One chief issue where these tactics are used is when they are PROTESTING abortion.

While I am anti abortion, I see some merit in their position. Just thinking of those buckets full of fetuses on some dirty floor is disgusting. Even while there are numerous

options to conception today, some feel abortion is a preferred option to solving the problem.

However, there is, if possible, a positive side to the issue, from my perspective. It may seem unconventional, but what is conventional about abortion? Of the 560 plus million abortions since Roe vs Wade, one would surmise that the vast majority were had by liberals. If it continues unabated, we should see the extinction of liberals quite soon. Are liberals outsmarting themselves?

Perhaps, that is the means by which their handlers, the Globalists, mean to get the world population down to their goal of a population of 500 million. Tops. How more efficient, or more diabolical? What do you expect from Globalists? They are not exactly cream puffs.

Is their reason: a woman's right to choose or, their systematic extinction of humans? No need for murder when you can have the dumber down do it willingly, for you.

Why are liberals so certain their ideas are correct and others have no knowledge whatsoever. I do not think so

Liberals have gone so far off the deep end, they seem like John Dewey's dumber down contingent. Perhaps a few more bongs might be helpful, they have made them so intelligent thus far.

Guess the reason why I am so stupid is because I have never tried a bong. Books are my avenue to knowledge.

Anyone have other notions on these three words? Words are not that simple, they can have expanded meanings.

D.I.L.

Combating Drug Addiction

October 26, 2018

This week, I joined President Donald J. Trump and my fellow members on the President's Commission on Combating Drug Addiction and the Opioid Crisis at the White House for an important bill signing ceremony. Our country is in the midst of a national opioid crisis claiming thousands of lives, and as we continue to combat this crisis, I am encouraged by the President's leadership and support.

During the ceremony, President Trump signed the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities Act that expands access to drug treatment and recovery services.

The SUPPORT Act is the single largest legislative package addressing a single drug crisis in history. This bipartisan legislation will bolster ongoing efforts, both in Florida and nationwide, to stop addiction and save lives.

You can also help in our fight against the national opioid crisis in Florida. The 16th National Prescription Drug Take Back Day is this Saturday. Drug take-back days, hosted by the United States Drug Enforcement Administration, allow people to safely dispose of unwanted or expired prescription drugs.

Sadly, users often rummage through the medicine cabinets of family members or friends in search of powerful prescription pills. Drug take-back days are a great opportunity to get rid of these medications and potentially save a life in the process.

To find a take-back location near you, please visit DEATakeBack.com.

Thank you for your help and support in fighting the national opioid crisis claiming lives in Florida. Working together, we will save lives.

Hurricane Michael

The recovery efforts continue in areas hardest hit by Hurricane Michael, and this week, I joined first responders, recovery crews and volunteers helping people in the aftermath of this deadly storm. I cannot thank our utility companies enough for their tireless efforts to restore power in areas filled with total devastation.

Cell service continues to provide challenges for first response and people affected by Michael. A major issue was that most of the cell service in the area was powered by Verizon. Governor Rick Scott and Chief Financial Officer Jimmy Patronis have championed this issue to help these citizens regain the cell service they desperately need. AT&T stepped up and brought in many mobile cell towers, as well as mobile phones.

I want to thank Tracfone, a national company based in Miami, for donating 200 phones fully charged with 60 days of AT&T service to help our first responders. These are just a few example of organizations stepping up to help those in need. In Franklin County with Sheriff A.J. Smith, we met a group of St. Petersburg pilots flying donated chainsaws, gas cans and other necessities directly to disaster sites.

In Mexico Beach, I met residents whose homes were destroyed and cars totaled. Mark and Christie Harriman and their two children rode out the storm at a neighbor's house. They lost everything, but remain resilient. Mark told me he will never ignore another evacuation order.

In Lynn Haven, local dentist Dr. Reese Harrison and his friend Jonathan Mitchell organized a disaster relief camp, providing free meals, gas and other necessities to displaced residents. In one day they fed more than 15,000 people.

I spoke to local radio, print and television reporters to help spread the word about preventing scams and price gouging. If you see something suspicious, please report it to my office at 1(866) 9NO-SCAM or MyFloridaLegal.com—for more resources, click [here](#).

Recovery will take months, but I am encouraged by the selflessness and courage of our first responders and those effected. I cannot thank Governor Rick Scott enough for his tireless dedication in coordinating all efforts to help the Panhandle recover.
